The fire was caused by a tramp who was smoking a pipe in the rear of one of the buildings.

LIBRION, July 12.—A report comes from London, nullifying the action of Archbishop Tragan, who, upon orders from Cardinal Merry del Val, the Papal Secretary of State, suppressed the Freemasonry Review, which he maintained, although Catholic and Catholic, was necessary to the support of the National Catholic party.

The decree declares that the archbishop has no right to exercise religious inspection upon the previous consent of the government, and warns him that a repetition of this action would be considered as an act of rebellion in the country which could not be tolerated.

The WONDER WORKER Shoe Machinery

Not only are the so-called Leases of the United Shoe Machinery Company, in the opinion of eminent lawyers, invalid and unenforceable, but the "WONDER WORKER" MACHINES are, in the opinion of shoe manufacturers, far superior.

Many of the largest and most prominent shoe manufacturers in the country, with their experts, have spent from one to three days each carefully examining the Plant Company's complete factory equipment of "Wonder Worker" shoe machinery in practical operation, turning out thousands of pairs of shoes daily.

Mr. Chas. H. Jones, Pres., Commonwealth Shoe & Leather Company, Boston, one of the most progressive and influential shoe manufacturers in the country, gives his views of "Wonder Worker" in the following letter—

Mr. Thomas G. Plant,

Dear Sir:

"We have taken time for a sober second thought before writing you in regard to our visit to your factory last Thursday. We were so much surprised at what we saw, and so astonished at the really wonderful results that you have accomplished, that I was afraid we might express ourselves with too much enthusiasm if I wrote of it as soon as we got back home.

"We have now thought over the whole trip carefully, and have talked with Mr. Reed about it again this afternoon, and can say with full conviction that you have shown us machinery that will make our grades of well shoes better, and more uniform in appearance, than any machinery that we have ever seen or used before. It is also evident that your machinery requires far less skilled labor to produce good work, than is required by machinery now in common use, and this fact must lead directly to lower cost of production.

"It is clear to us that the obvious advantages of your outfit will appeal to all progressive manufacturers, and we foresee such an awakening in this department of the shoe business as has not been witnessed for many a long day.

"With heartiest congratulations on your splendid achievement, we are,"

Yours very respectfully,

THE COMMONWEALTH SHOE & LEATHER CO.

OVERHEAT CURE OF SORE HANDS

Skin Peeled and Flesh Got Hard and Broke Blood Flowed in Fifty Places—"Single Box of Cuticura Ended Suffering"

About eleven years ago I was troubled with sore hands, so sore that when I would put them in water the pain would be very nearly as bad as the skin would peel off and the flesh would get hard and broke. There would be blood flowing from at least fifty places on each hand. Words could never tell the suffering I endured for three years. I tried everything that I was told to use for fully three years, but could get no relief. I tried at least eight different doctors, but none of them seemed to do me any good, as my hands were as bad when I got through doctoring as when I first began. I also tried many remedies, but none of them ever did me one cent's worth of good. I was discouraged and hopeless. After doctoring for so long and spending much money, a single box of Cuticura Ointment ended all my sufferings. It's been eight years since I used any and I don't know what sore hands are now, and never lost a day's work while using Cuticura Ointment.

Before I started to work mornings I would have to wrap every finger up separately, so as to try and keep them safe, and then wear gloves over the wraps to keep the grease from getting on my work. At night I would have to wear gloves in bed. In fact, I had to wear gloves all the time. After doctoring for so long and spending much money, a single box of Cuticura Ointment ended all my sufferings. It's been eight years since I used any and I don't know what sore hands are now, and never lost a day's work while using Cuticura Ointment.

NEW YORK, July 13.—Jed Nelson, the Australian welterweight, made a favored impression in his first bout before an American audience, when he knocked out Jack Clifford in the sixth round of their scheduled ten-round tilt at the Waldorf-Astoria last night.

Nelson was trained for Middleweight Champion Stanley Ketchik as a world champion, but failed to live up to all the great things said of him. He lacked a great deal of speed and power, and his boxing was not very good. He was a bit of a showman, but his boxing was not very good. He was a bit of a showman, but his boxing was not very good.

DRIVING FINISH IN FIGHT FOR PENNANT

PHILADELPHIA, July 13.—(Continued from page 1.) The driving finish of the American League this season means Philadelphia, Detroit, Boston and New York going under the wire tonight and after for the last check. The Athletics' fans say that either of these three teams may make a win, but that while Boston leads larger than any of the other leads the real screwing battle is between the teams that now top the first division. We've got a chance to win and the other side of teams I have mentioned had to be to the last fight. There is a bunch of good teams in the American League but the race has shaped itself now so that the three teams look like the real goods.

STRAIGHT TIPS FOR SPORT FANS

OH, YOU RED SOX! THAT THOUGHTING you gave the Sox in the last game was all to the good. It was sweet revenge for the loss of last game the day before. Let that Lapsie and his brave left handmen feeling just as high-spirited and happy as did see Mr. James J. Jeffries after that particular "no hit" game. While we're on the subject of Lapsie, did you observe what happened to him yesterday? Chas. Molineux, making his debut with the Varsity Reds, struck out the gent with the pretty sounding name. No wonder Lapsie has a growing today. If you asked the second starter for a nickel today to save you from starvation, and you happened to be a Boston rooter, you'd have as much chance of getting it as a baseball has of remaining a baseball in this torrid weather.

JENNINGS AND TY COBB HAVE QUARREL

PHILADELPHIA, Pa., July 13.—Ty Cobb is in hot with Hugh Jennings. In the games played here against the Athletics Cobb has failed to show either at bat or added, and the Athletics the Athletics gave the Tigers not add any lively action to Ty.

Cobb was among the missing when the Tigers arrived at the Athletics grounds yesterday. Although his absence was noted, no particular attention was paid to it until the Detroit team went to bat in the opening inning, and Jennings, the utility man, stepped in Cobb's shoes.

JOE HORNER WON'T SIT IN A CORNER

PHILADELPHIA, Pa., July 13.—Joe Horner, champion, called for England from this city yesterday on the Olympic. The Western champion is on a visit ending over through the British Isles, and intends to be a competitor in the numerous meetings throughout the Kingdom.

Visiting Horner expressed no doubt about his being able to compete in England in spite of the British amateur officials looking on American athletes.
